

INTERNAL BUSINESS MEMORANDUM

TO: TradeZone Management Team
FROM: Oghenerukevwe 'Rukky' Ujara, Data Analyst
DATE: April 23, 2026
SUBJECT: 2024 Business Performance Analysis & Strategic Recommendations

Executive Summary

TradeZone experienced significant scaling in 2024, culminating in a record-breaking Q4 with over ₦350 million in revenue. The analysis identifies a heavy reliance on a high-value 'High Spender' segment and highlights regional variations in payment preferences that are critical for logistics and marketing optimization.

Key Performance Insights

Revenue & Growth Trends

Revenue grew consistently throughout 2023 and 2024. The strongest surge occurred in Q4 2024, which generated ₦350.8M compared to Q4 2023's ₦71.9M. This represents a nearly 400% year-over-year increase for the holiday quarter.

Customer Segmentation

Our 'High Spender' group ($\geq$ ₦100k) consists of 591 customers who contributed ₦834.7M in revenue. This group is the backbone of our platform's financial health, while 'Mid Rated' products (3.0-3.99 stars) surprisingly drive the highest volume of sales.

Operational Efficiency

Seller efficiency is led by RunFast NG with a 91.2-hour fulfillment average. Six sellers officially qualified for the 2024 Performance Bonus, led by SportsCentral NG with ₦7.1M in revenue and a 4.1 rating.

Regional Payment Preferences

Lagos and FCT show a strong preference for Card payments. However, Kano and Oyo remain dominated by Cash on Delivery (CoD). Logistics planning in these northern and western hubs must remain optimized for cash handling.

Strategic Recommendations

- Implement a loyalty program specifically targeting the 591 'High Spenders' to ensure retention.
- Launch an investigation into 'Mid Rated' products; improving these to 4.0+ stars could significantly reduce churn.
- Formalize the bonus payout for the 6 qualifying top sellers to encourage platform-wide service quality.
- Tailor marketing campaigns in Kano and Oyo to emphasize CoD reliability while gradually introducing Mobile Money incentives.
